Profile

Manager and Technical Architect with 20+ years of experience delivering enterprise-scale web platforms across Advertising, E-Learning (LMS), and Logistics domains. Proven success in reducing operational costs (15–30%), modernizing legacy systems, and leading cross-functional teams of 20+ engineers. Strong hands-on expertise in .NET, React, PHP, Python, Moodle, and Generative AI, with a track record of aligning technology strategy to measurable business outcomes.

Professional Summary

- **Experience:** 20+ years in enterprise software architecture, development, and delivery.
- **Results:** 30% workload reduction through automation.
- **Leadership:** Managed Agile & Waterfall teams (5-7+ members) across multi-year programs.
- **Domains:** Advertising, E-Learning/LMS, Shipping & Logistics.
- **Focus:** Generative AI adoption, automation, scalable architectures, and cost optimization.

Professional Experience

Manager

Affinity Express Pvt. Ltd. | ***May 2018 – Present***

- Led enterprise delivery of multiple in-house platforms, translating business vision into scalable technical execution for global stakeholders.
- Reduced operational workload by 30% by automating manual support and production workflows.
- Cut vendor and operational costs by 15% through vendor consolidation and migration of third-party systems to internal platforms.
- Improved delivery timelines by 20% by strengthening Agile sprint governance, backlog prioritization, and stakeholder communication.
- Managed cross-functional teams of 20+ members, including developers, designers, and QA, across concurrent projects.

- Drove innovation initiatives by leading POCs for copyright detection and AI-based image generation using Generative AI tools.
- Implemented automated unit testing for designers using InDesign Scripting, reducing production errors before downstream handoffs.

Tools & Technology: React, Python (FastAPI), C#, .NET, SQL Server, MySQL, Vellum AI, InDesign Script, Agile/Scrum.

Technical Architect / Team Lead

Aptara New Media Pvt. Ltd. | ***Nov 2010 – Jul 2015 & Oct 2015 – Apr 2018***

- Owned end-to-end system architecture and SDLC for enterprise-grade educational and LMS platforms used by global publishers.
- Converted complex client requirements into scalable technical architecture, release roadmaps, and prioritized delivery plans.
- Balanced architecture leadership with hands-on coding, resolving high-risk defects and performance bottlenecks.
- Enabled multi-tenancy and SSO architectures supporting multiple institutions on shared infrastructure.

Tools & Technology: Moodle, PHP, CakePHP, MySQL, HTML5, CSS3, SOAP Web Services.

Senior Software Developer

Ascent Informatics Pvt. Ltd. | ***Mar 2007 – Nov 2010***

- Developed and maintained enterprise logistics systems handling 2,000+ customers and 100+ carrier integrations.
- Prepared and implemented Change Request documentation, ensuring controlled delivery of enhancements and fixes.

Tools & Technology: .NET, C#, SQL Server, DLL-based modular architectures.

Earlier Roles (2004–2006)

Invengence Pvt. Ltd. | Cybertech Pvt. Ltd. | Sonal Infosystem Pvt. Ltd.

- Contributed to application development, bug fixing, and feature enhancements across multiple client systems.

Tools & Technology: PHP, MySQL and jQuery.

Key Projects

Content Generation Using Generative AI – *Affinity Express*

- Automated creative content generation by integrating Vellum AI with Python (FastAPI) backend and ReactJS frontend.
- Reduced design-stage errors by implementing InDesign Script–based automated unit testing.
- Improved designer feedback cycles via interactive PDF reports highlighting validation errors.

Technology: ReactJS, Python (FastAPI), Vellum AI, TypeScript, InDesign Script.

AIMS (Order Management Platform) – *Affinity Express*

- Led development of an end-to-end order management system replacing costly third-party tools.
- Millions saved in licensing costs through in-house migration.
- Managed 7+ team members across development, QA, and support.

Technology: C#, .NET Framework, React, Python, SQL Server, MySQL, High charts.

HRMS – *Affinity Express*

- Built a full employee lifecycle platform covering onboarding to exit.
- Ensured compliance with evolving tax and labor regulations.
- Integrated with Naukri RMS for recruitment workflows.

Technology: PHP (Yii), MySQL, HTML5, CSS3, Tableau, Google Data Studio.

DUCIS Language Platform

- Architected a multi-tenant LMS supporting multiple vendors via sub-domain isolation.
- Delivered mobile apps on Android & iOS using Moodle Mobile and Ionic.
- Developed Desktop/Mobile Compiler which supports core Python, core Java and core PHP.

Technology: Moodle, Ionic 5, AngularJS, MySQL.

McGraw-Hill LMS Platforms (WFA/CCA & Workforce Connect) – *Aptara*

- Enabled multi-institution LMS delivery using custom Moodle abstraction layers.
- Built SOAP-based SSO integrations with ConnectED and Career Cruising platforms.
- Designed adaptive learning paths using conditional assessments and progress visualization.

Technology: Moodle, PHP, MySQL, HTML, CSS3.

KEWILL Shipping System – *Ascent Informatics*

- Supported a high-volume logistics platform integrating 100+ carriers globally.
- Designed modular, carrier-specific DLL architectures (Purolator – Canada).
- Enabled complex, rule-based shipping configurations across multiple sites.

Technology: C#, .NET, SQL Server, Enterprise DLL Architecture.

Education

Bachelor of Computer Science – KTHM College, Nashik | 2004 | Pune University

---

Skills

- **Backend:** PHP, C#, .NET, ASP.NET, Python, FastAPI
- **Frontend:** ReactJS, AngularJS, JavaScript, TypeScript, HTML5, CSS3, Ionic 5
- **Databases:** MySQL, SQL Server, DB2
- **AI & Automation:** Generative AI (Vellum AI), InDesign Scripting, OpenAI
- **LMS Platforms:** Moodle
- **Analytics & ETL:** Tableau, Google Data Studio, Apache NiFi
- **Methodologies:** Agile, Waterfall

Certifications

- Zend PHP Certification 5.3
- Generative AI Program
- Moodle Developer Skills

Key Achievements

- 30% workload reduction via automation.
- Led AI adoption across creative workflows.
- Managed and mentored teams of 5-7+ professionals.
- Expanded project portfolio from $60K to $120K within 8 months, resulting in acquisition of 3 additional similar enterprise engagements.
